General Safety Instructions

- The rigid items and plastic parts of an Enhanced Child Restraint System shall be installed and positioned so that they cannot become trapped, during everyday use of the vehicle, from becoming trapped by a movable seat or in a vehicle door.
- Any straps securing the restraint to the vehicle should be tighten, any support leg should be in contact with the vehicle floor, any straps or impact shields restraining the child should be adjusted to fit the child's body, and straps should not be twisted.
- It is important to ensure that any lap strap is worn low down.
- The Enhanced Child Restraint System should be replaced when it has been subjected to violent stresses in an accident.
- It is dangerous to make any alterations or additions to the device without the approval of the Type Approval Authority, and it is also dangerous if the installation instructions are not closely followed provided by the Enhanced Child Restraint System manufacturer.
- Be sure that children are not left unattended in their Enhanced Child Restraint System.

- Ensure that any luggage or other objects that could cause injury in the event of a collision are properly secured .
- Be sure that the Enhanced Child Restraint System shall not be used without the cover.
- Be sure that the Enhanced Child Restraint System cover should not be replaced with any cover other than the one recommended by the manufacturer, because the cover is integral part of the restraint system's performance.
- Refer to the vehicle manufacturer's handbook for the use of an "i-size Enhanced child Restraint System".

WARNING

ATTENTION:

Notice regarding i-Size booster seat category Enhanced Child Restraint Systems(100- 150cm)

This is a i-Size booster seat Enhanced Child Restraint System.

It is approved according to UN Regulation No.129, for use primarily in " i-Size seating positions" as indicated by vehicle manufacturers in the vehicle user's manual.

</table>

* ECE= European Standard for Safety Equipment

The child safety seat has been designed, tested and certified according to the requirements of the European Standard for Child Safety Equipment(ECE R129/04).

WARNING

Never use this child restraint system in seating positions where an active frontal airbag is installed.

An active frontal airbag may cause death or seriously injury of your child in an accident.

Please read the instructions carefully and keep safely for future reference . There is an instructions compartment in the back of the child car seat for storage of the instructions manual.

You can use your child car seat as follows:

Know Your Child Seat

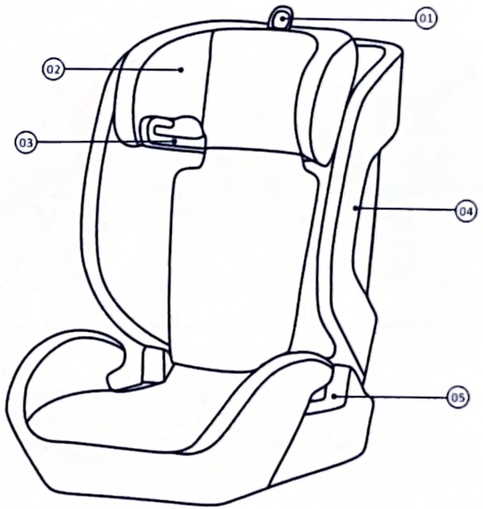
01- Headrest Adjustable Switch

02- Headrest

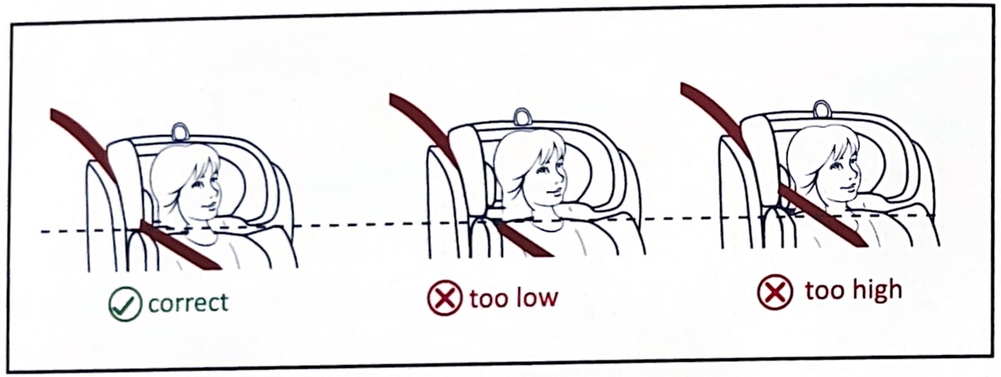
03- Shoulder Belt Guide

04- Backrest

05- Lap Belt Guide



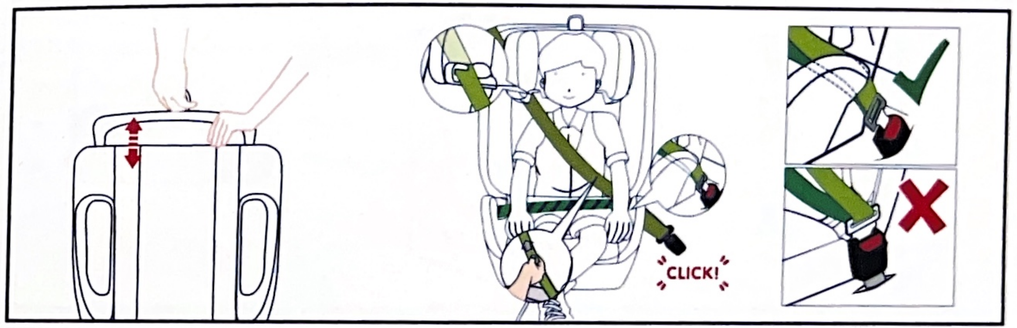
Setting The Shoulder Belt Height



Check whether the shoulder belt is set to the correct height for your child.

The shoulder belt should be threaded through the belt slots that are at or just above the child's shoulder height.

Forward Facing Installation(100-150cm)



Securing the child

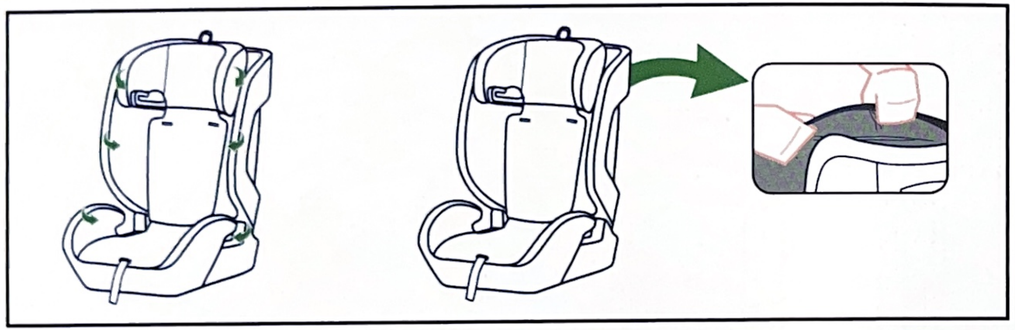
Put the child into the child car seat and follow routine.

Use the Headrest adjustable switch to adjust the height of the headrest according to the child's height.

The shoulder straps should be level with or just above the child s shoulders.

Fasten car seat belt and make sure, it is tight enough.

Remove The Cover



Adjust the headrest up to most highest position, take away the comfortable cushion. Then release the buckle to remove the chest pad.

Remove the headrest cover and seat cover carefully.

Maintenance

1. Washing

- The covers and the shoulder pads can be removed for washing under 30℃ clean water;
- Clean the shell using a damp cloth.
- Clean the buckle using a damp cloth.
- Remove off the harness system before washing by soap water.
