General Safety Instructions

Warning!

In order to provide your child with greatest security, please read this instruction manual carefully:

- The rigid items and plastic parts of an Enhanced Child Restraint System shall be so located and installed that they are not liable, during everyday use of the vehicle, to become trapped by a movable seat or in a door of the vehicle.
- Any straps holding the restraint to the vehicle should be tight, any support-leg should be in contact with the vehicle floor, any straps or impact shields restraining the child should be adjusted to the child's body, and straps should not be twisted.
- It is important to ensure that any lap strap is worn low down.
- The Enhanced Child Restraint System should be replaced when it has been subjected to severe stresses in an accident.
- It is dangerous to make any alterations or additions to the device without the approval of the Type Approval Authority, and it is also danger not following closely the installation instructions provided by the Enhanced Child Restraint System manufacturer.

- Be sure that children are not left unattended in their Enhanced Child Restraint System.
- Be sure that any luggage or other objects may be liable to cause injury in the event of a collision shall be properly secured.
- Be sure that the Enhanced Child Restraint System shall not be used without the cover.
- Be sure that the Enhanced Child Restraint System cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint system's performance.

Product description

Type	Stature	Facing direction	Installation	Approval type
KEA PLUS	125-150cm	Forward	adult safety-belt+ ISOFIX attachment	Universal booster cushion
			adult safety-belt	

Notice

This is a Universal booster cushion Enhanced Child Restraint System. It is approved according to UN Regulation No.129, for use in i-Size compatible and universal vehicle seating positions as indicated by vehicle manufacturer in the vehicle user's manual.

If in doubt, consult the Enhanced Child Restraint System manufacturer or the retailer.

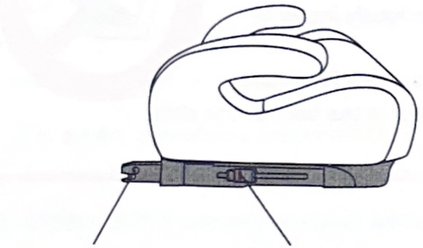
125- 150cm: ISOFIX connectors+adult safety-belt or adult safety-belt only.

WARNING

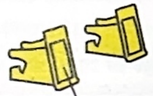
Never use this child restraint system in seating positions where an active frontal airbag is installed.
An active frontal airbag may cause death or seriously injury of your child in an accident.
Please read the instructions carefully and keep safely for future reference. There is an instructions compartment in the back of the child car seat for storage of the instructions manual.

You can use your child car seat as follows:

Know Your Car Seat

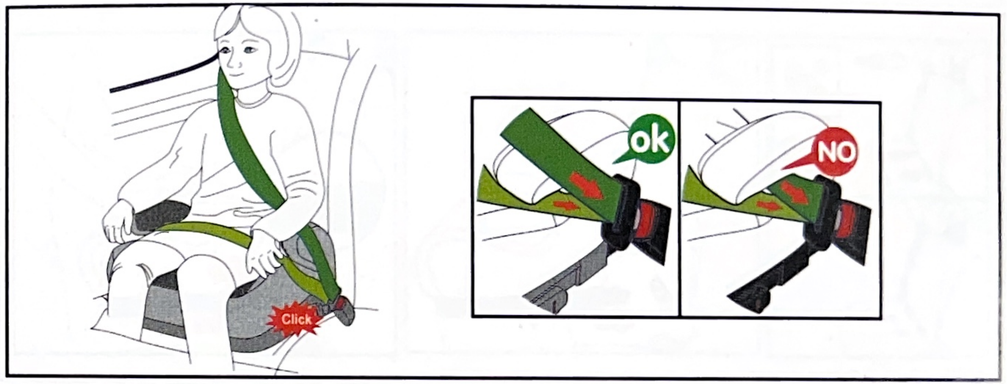


ISOFIX Connectors ISOFIX Release Button



ISOFIX Guide Cover

Installation In The Vehicle With 3-Point Belt

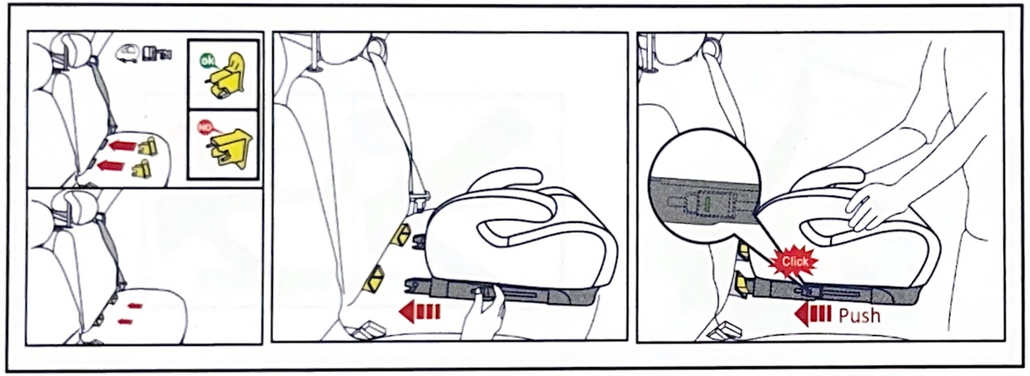


Place the child in the booster seat.

Shoulder belt adjuster must be adjusted so that the shoulder strap is at the same level as your child's shoulder.

Fasten the safety belt by buckling it until you hear a click. Be sure the safety belt is not twisted and the lap belt should be worn over the hips.

Installation In The Vehicle With ISOFIX Connectors And 3-Point Belt



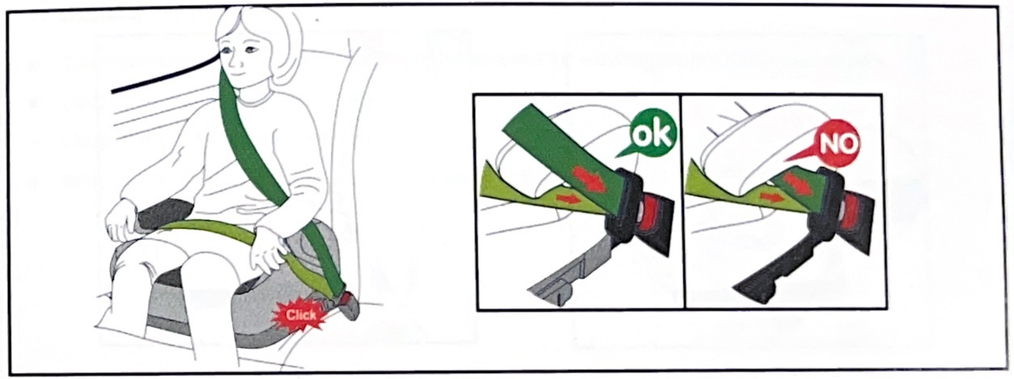
Locate the ISOFIX Anchor points and place the ISOFIX Sleeve Brackets over the anchor points.

Extend the ISOFIX Brackets and connect them to the Anchorage Points of the vehicle.

Position the ISOFIX connector to a suitable position in the direction shown in the figure.

Ensure that both Indicators turn GREEN!

Ensure that the seat is properly connected by moving it from side to side.

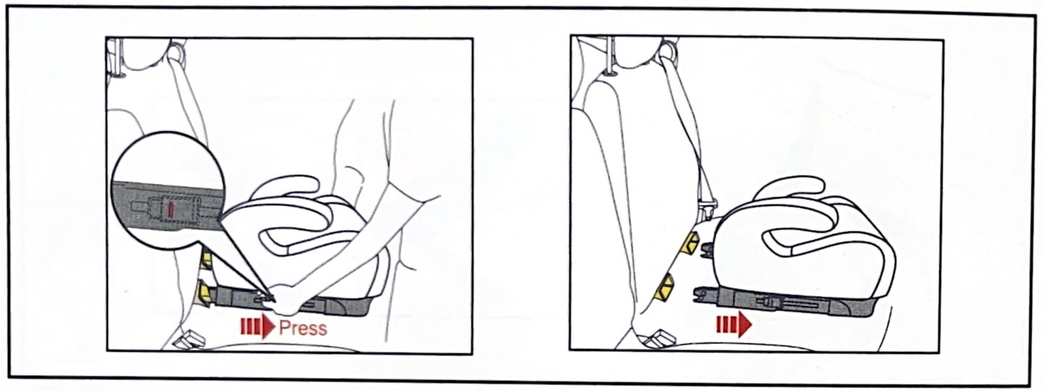


Place the child in the booster seat.

Shoulder belt adjuster must be adjusted so that the shoulder strap is at the same level as your child's shoulder.

Fasten the safety belt by buckling it until you hear a click. Be sure the safety belt is not twisted and the lap belt should be worn over the hips.

Remove The Booster Seat



Release the 3-point safety belt from the buckle. Guide the shoulder and lap belt from the lap belt guide.

Press the ISOFIX release buttons on both sides inwards simultaneously, until the indicator on the ISOFIX release button turns red.

Pull the booster seat and remove it from the vehicle seat.

Maintenance

1. **Washing**

- The covers and the shoulder pads can be removed for washing under 30°C clean water;
- Clean the shell using a damp cloth.
- Clean the buckle using a damp cloth.
- Remove off the harness system before washing by soap water.
