

WARNINGS:

Avoid serious injury:

- **NEVER** leave child unattended
- **ALWAYS** keep child in view even while sleeping
- **WEIGHT LIMIT:** 9kgs (20lbs)
- **DISCARD** all plastic coverings and fastener tabs to prevent choking
- Bassinette must be fully assembled prior to use
- Do not remove or carry bassinette basket with infant in it
- Do not use near heat source or flame
- Do not use accessories other than those provided by the manufacturer
- **NEVER** use near stairs
- Do not attach strings in or around bassinette. This is a choking hazard
- Do not place bassinette near window where cords from blinds or drapes could strangle child

Prevent tipping:

- **DO NOT** allow older children to play or hang on bassinette
- **DO NOT** hang parcels on bassinette canopy

Important information:

From time to time, check your bassinette for worn parts and torn material or stitching.

Cleaning:

For cleaning the frame, use mild soapy water.

For the fabric use a mild detergent. Dry in cool air. Do not use bleach.

Read the instructions and caution information in this booklet and those found on your bassinette. The short time you spend reading these instructions and warnings will help you use your bassinette properly. Save these instructions for future reference.

1 BASSINETTE BASKET ASSEMBLY

Set floor board into fabric cover with retaining clips face up

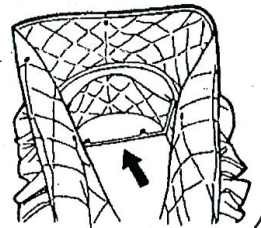

Note: fabric can be removed for gentle hand washing by removing the 4 dome straps and sliding elastic fabric ends over baseboard clips.

To remove canopy, undo both hinge screws, remove fabric and replace after washing.

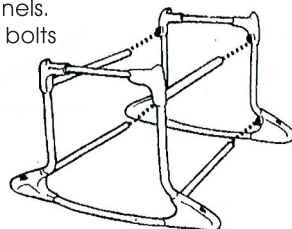

2 BASSINETTE BASKET ASSEMBLY

Unfold basket frame support legs and attach securely under wire retaining clips on floor board. Snap fabric cover to floor board making sure that canopy mounts line up with cover stocks.

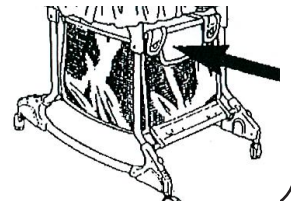

3 STAND ASSEMBLY

Insert the four cross tubes into the top and bottom tube sleeves on the rocker panels. Fasten with the nuts and bolts provided.

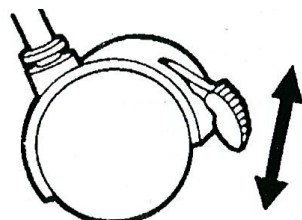

4 STORAGE BASKET ASSEMBLY

Attach storage basket to frame by fastening top and bottom basket snaps around top and bottom frame cross bars.

5 WHEEL OPERATION

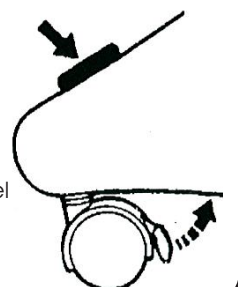

To lock wheels, press wheel locking tab to down position. To unlock, lift tab up.

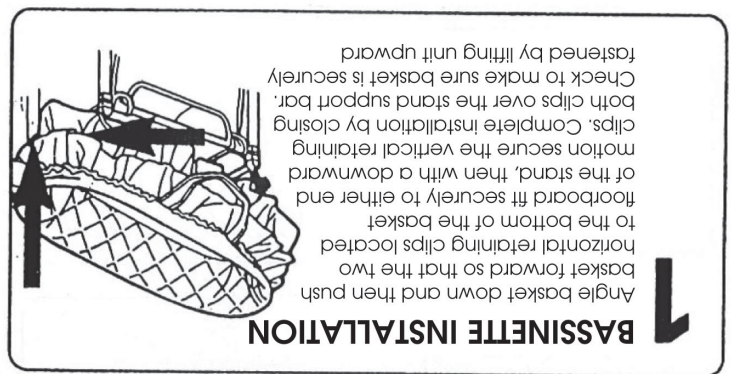

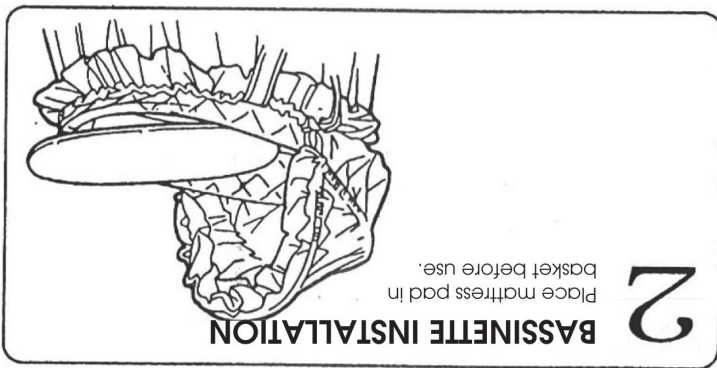

6 WHEEL OPERATION

To extend wheels, depress wheel lock button. Wheels automatically extend out. Release button to lock wheels in place.

To retract wheels, lock wheels and turn inward. Depress wheel lock button while rotating wheels upwards. Release lock button to lock wheels in place.
