YOUR CHILD'S SAFETY IS YOUR RESPONSIBILITY**

## **WARNING:**

RETAIN FOR FUTURE REFERENCE.

READ ALL INSTRUCTIONS CAREFULLY BEFORE ASSEMBLY AND USE OF THIS COT. KEEP INSTRUCTIONS FOR FUTURE USE.

ALWAYS FOLLOW THE INSTRUCTIONS.

THE CORRECT USE AND MAINTENANCE OF THIS PRODUCT IS ESSENTIAL.

## **WARNING**

- ADULT ASSEMBLY REQUIRED.
- FOLLOW THE MANUFACTURER'S ASSEMBLY INSTRUCTIONS TO ENSURE THE SAFETY FEATURES OF THE COT ARE NOT COMPROMISED.
- DUE TO THE PRESENCE OF SMALL PARTS DURING ASSEMBLY, KEEP OUT OF REACH OF CHILDREN UNTIL ASSEMBLY IS COMPLETE.
- TO PREVENT FALLS, THE MATTRESS BASE OF THIS COT SHOULD BE ADJUSTED TO THE LOWEST POSITION BEFORE THE CHILD CAN SIT UP.
- RECOMMENDED MATTRESS SIZE:  
THIS COT HAS BEEN MANUFACTURED FOR USE WITH A MATTRESS WHICH MEASURES 1300 MM LONG x 690 MM WIDE x 100-120 MM THICK (sold separately).
- The width and length are specified because it is important that the gaps between the mattress and the sides and ends of the cot will not exceed 40mm when the mattress is pushed to one side or end, and 20mm when the mattress is centred in the cot.  
This is to minimise the risk of a child's limb becoming caught in the gap.
- The thickness of the mattress has been specified to ensure that the depth of the cot is greater than 500 mm with the mattress base in the lower position to minimise the risk of a child climbing or falling out of the cot.
- Use only accessories as recommended by the supplier.
- Failure to follow warnings and instructions could result in serious injury or death.
- This cot has been manufactured for one child only, with a maximum weight of 18kgs.
- The drop side must be raised when the child is unsupervised.
- When the mattress base is assembled in the lower position, ensure the higher cot base holes are covered tightly with the filling bolts supplied. This is to prevent finger entrapment, swallowing and inhalation hazards.
- **ENSURE** the cot is placed at a reasonable distance from curtains, blinds, heaters and power points.

• **ENSURE** that the child is clear of any moving parts when adjusting the cot. For warranty purposes, keep your sales receipt to provide proof of purchase.

• **ENSURE** the cot is completely assembled and check that all parts are securely tightened before placing the child into the cot.

• **ENSURE** medication, string, elastic, small toys or small items such as money etc are always kept out of the child's reach when in the cot.

• **DO NOT** over tighten bolts/screws.

• To reduce the risk of Sudden Infant Death Syndrome (SIDS), paediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.

**SUFFOCATION HAZARD** – Infants can suffocate:

• In gaps between an extra pad or mattress.

• In soft bedding.

# COT ASSEMBLY

- Unpack all contents and check that all parts are present before starting assembly. Please refer to the parts list.
- It is advisable that two people assemble the cot in the room in which it is to be used.
- As small parts are involved in assembly, children should be kept clear of the assembly area.
- Dispose of all packaging material immediately after the cot is assembled.
- Identify all parts and components.
- Clear an area on the floor for assembly and place a sheet on the floor to ensure the cot is not scratched during assembly.

1. With two end panels standing upright, attach one end of the side panel to one end panel using two cot assembly bolts as below. Secure with Allen key but do not tighten bolts completely.

## COT ASSEMBLY

- 2.** Lie cot down onto the assembled fixed panel.  
Attach one end of the mattress base to one end panel using two cot assembly bolts.  
Secure with Allen key but do not tighten bolts completely.

### ⚠ WARNING ⚠

MATTRESS BASE 'THIS SIDE UP' LABEL MUST BE  
FACING UPWARD WHEN MATTRESS BASE IS INSTALLED

# COT ASSEMBLY

- 3.** Slide the fixed side panel and attach using the remaining four cot assembly bolts.

- 4.** Stand cot upright.

- 5.** Tighten all twelve cot assembly bolts and four filling bolts.

The Cot is now ready for use.

# MATTRESS BASE HEIGHTS

**Mattress base in High Position**  
The base height is set for when your baby is young and cannot sit up unaided.

**Mattress base in Low Position**  
This is the normal position for an active baby who can sit up unaided.

**NOTE:** If changing the mattress base from the upper to the lower position, you must swap over the filling bolts. It is important that the filling bolts are replaced into the opened holes. Ensure they are secured tightly with the Allen key and check regularly that they do not loosen.

# MATTRESS BASE HEIGHTS

1. Lay down the cot on the fixed side panel.
2. Remove the two lower filler bolts and nuts from each of the end panels.
3. Loosen the side panels bolts from end panels. Remove the four mattress base bolts from the end panels.
4. Carefully slide the base to match the lower holes and replace mattress base bolts.
5. Tighten all twelve cot assembly bolts and four filling bolts.
6. Repeat step 6 on page 8.

**NOTE:** Re-fit filling bolt and nut to the higher base positions to prevent possible finger entrapment.

## CARE AND MAINTENANCE

- Check cot regularly to ensure that locking devices and components are secure and working properly.
- Always check parts regularly for tightness of screws, nuts and other fasteners - tighten or replace if required.
- To maintain the safety of your cot, discontinue use and seek prompt repairs for bent, torn, worn or broken parts.
- Regularly inspect and maintain your product to ensure the freedom of movements of the locking devices and assembly fittings are tightened correctly.
- To prolong the life of your cot, keep it clean and do not leave it in direct sunlight for extended periods of time.
- Use a damp cloth to clean the frame.
- Do not use abrasive cleaners.
