

BabySafe GATE INSTRUCTION LEAFLET

ALL PARTS

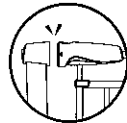

XY-005

4 Width-adjusters

Steps to use wall-cup:

1. Tear off the two face sticker
2. One side stick on the white cup
3. The other side stick on the place/wall where you want to install this gate

Note:

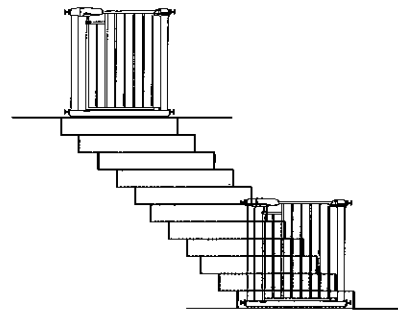

The lock is apart when you open the carton, it is normal. Please screw the 4 width-adjusters when the lock is closed.

SUITABLE FOR INSTALLATION PLACES

This product is suitable for indoor places, such as bedroom, kitchen, stairs, hallways etc.

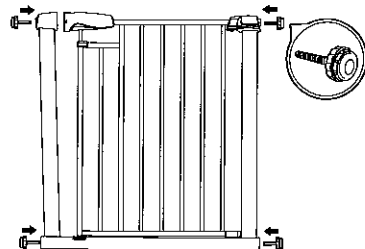

Note:

1. This gate is suitable to install between 76 to 83cm wide. If you need to set up at a wider place please use the extension parts. (read at the back)
2. Please make sure the set up surface is flat, strong and stable.
3. Please make sure the set up surface is larger than 3cm.

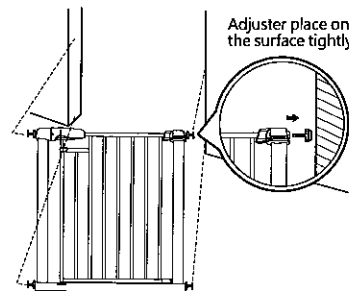

GATE INSTALLATION INSTRUCTION

1. Put the 4 width-adjusters in to the gate side (top and bottom).

2. Put the gate at where you want to install, place the rubber on the surface (width larger than 3cm).

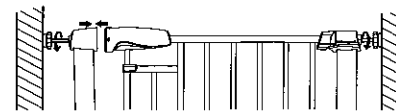

Thank you for select our products. Please read the instruction carefully before setting up the gate, and keep it properly for future reference.

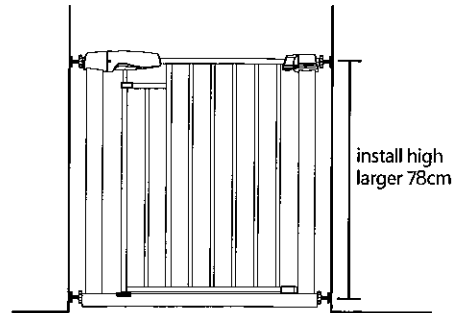

3. Screw the bottom adjusters, let the gate stand vertical.

4. Screw the top adjusters, let the lock close smoothly.

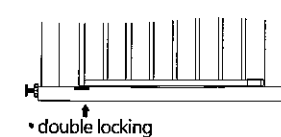

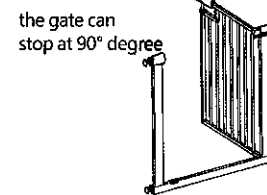

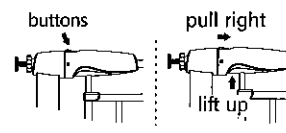

5. Check the 4 adjusters, make sure the gate is setting up firmly.

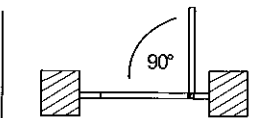

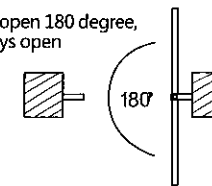

GATE USAGE INSTRUCTION

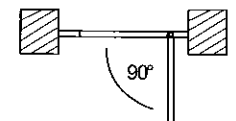

Way of open: Pull back the top button and press and hold the bottom button up

can be open 180 degree, two ways open

turn one side of the double locking, can let the gate be one side open.

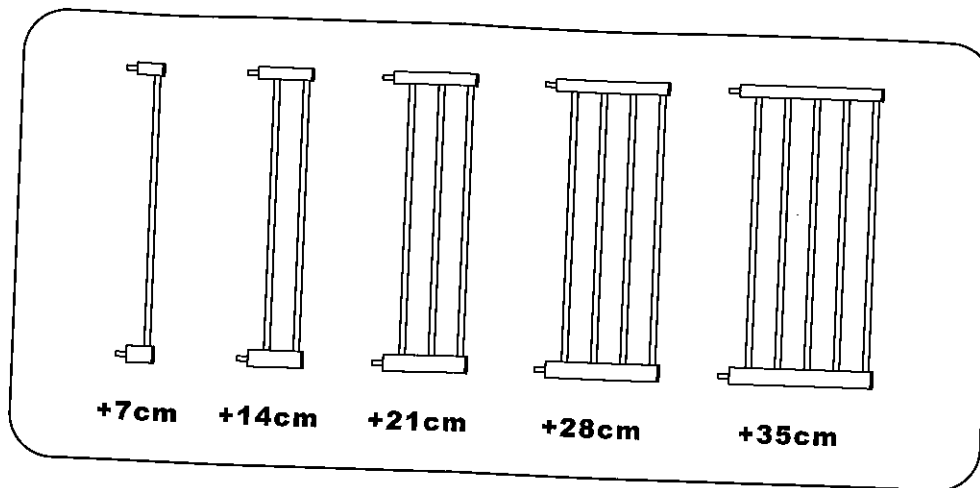

WARNINGS:

- Please read the instruction carefully before setting up the gate, prevent any danger.
- Please install the gate at a flat surface in order to prevent any danger. As the rubber of the adjuster will have a strong force with the surface.
