## ⚠ WARNING ⚠

1. Children have died or been seriously injured when gate is not securely installed.
2. ALWAYS install and use gate as directed using all required parts.
3. You MUST install hardware to keep gate in place. Without hardware, child can push out and escape.
4. STOP using when a child can climb over or dislodge the gate.
5. NEVER use to keep child away from pool.
6. Safety barrier is suitable for use with children from 6 months up to 24 months of age.
7. The product is not to be used with a child able to climb over or dislodge/open the gate.
8. Minimum width of opening is 50cm. Maximum width of opening is **140/180cm**.
9. Clean the surface with dry cloth.
10. The safety gate retracts very quickly, please be careful not to pinch your hands or babies.
11. The safety barrier must not be fitted across windows.
