NOTICE

- This is a UNIVERSAL seat for children group 3 from 22kg to 36kg (child's age approx: from 6 year's - 11 year's). This device is approved in accordance with the European standard for child restraint systems ECE R44/04.
- This seat is only qualified for use in vehicles equipped with a three-point seat belt which are permitted by the ECE regulation No 16 or other comparable standards.
 - The seat can be placed on front and back passenger seats of the vehicle. In the direction of drive only (forward facing only), which are equipped with a three-point seat belt.
 - The seat must not be placed on the front passenger seat, if the car is equipped with an AIRBAG that cannot be switched off.
- This holding device has been classified as UNIVERSAL, according to stricter approval criteria than previous models, that did not have such notices.
 - In case of any doubt whether the seat should be used in vehicles, when the car's instruction manual does not express such allowance, contact the seller or producer (see details on this page).

INSTALLATION INSTRUCTIONS

- This device should be placed on the vehicle seat in the direction of travel only. It should be pressed firmly to the back and rest on the seat base.
- Make sure that the diagonal belt does not run too close to the child's neck. The lap belt should be positioned as low as possible, for a tight pelvic hold.
 - Group 3 (22- 36 kg): the lap belt must go UNDER the armrest of the booster seat and the diagonal belt must go OVER the armrest.
 - The seat must never be used without a cover.
- The cover is made from polyester and can be washed at 30°C by hand only.

WARNING

- The seat's optimum safety characteristic can only be achieved if it is used properly according to the installation instructions.
 - Do not modify the child restraint system.
- All belts must lie tightly against the child's body without being twisted.
- Luggage and other objects should be stored properly in the event of an accident, these can be dangerous and can injure your child.
 - In the event of an accident the seat must be replaced with a new one.

Safety Certification: ECE R44.04
